2. am Dienstag, 1.1.3 Lindemann wegen Schengen anrufen

verläuft schön. Kinder halten sich an ihre unzumutbaren Weisungen, können mir aber nichts vormachen, was schlicht menschenunmöglich ist. Ihre Seelen sind noch nicht so verhärtet. Keiner hätte es an ihrer Stelle anders geschafft, sich selbst und ihre Natur zu verleugnen auf der Bühne der inzwischen wiederhergestellten natürlichen Selbstverständlichkeit, die eigene Natur zu kennen. Nur zu kennen, genügt schon. Es ist so, als ob von ihnen verlangt waren wäre, vorzugeben, schwerhörig zu sein oder blind, obwohl jeder weiß dass sie nicht schwerhörig sind und ihre Augen sogar verraten, dass sie auch nicht blind sind.

pünktlich zum Mutter Erde Tag bleibt als Ergebnis für immer festzuhalten. Menschliche Populationen interagieren wie tierische Bevölkerungen über unterschiedliche soziohumanbiologische Funktionen ihrer Mitglieder, die durch gemeinsame Signale (vermutlich sogar nicht nur) von ihren Gehirnen verarbeitet werden. (Außerst vermutlich neben weiteren, die uns noch nicht bekannt sind) handelt es sich bei den unterschiedlichen Funktionen jedenfalls um **Senden- und Empfangsbewusstsein**. Entweder man hat das eine oder das andere. Und wie es wirkt ist ebenfalls nie mehr bestreitbar: **Die Gedanken und Wahrnehmungen der sendebewussten Menschen werden von den aufnahmebewussten Menschen automatisch mitverfolgt**. Gewissermaßen vorübergehend oder vielleicht auch etwas länger abschalten können sie aber, um sich auf ihre eigenen Tätigkeiten zu konzentrieren, wenn das erforderlich wird. Mehrere "Filme" gleichzeitig aufzunehmen und zu behalten geht zwar, setzt aber Entspannung voraus oder dass es sich bei den daneben verrichteten eigenen Tätigkeiten um sehr routiniert verrichtete handelt, bei denen nicht mehr viel gedacht werden muss, sondern die automatisiert sind. Es ist wie Radio und Fernsehen gleichzeitig laufen zu lassen und außerdem dabei zu arbeiten. Ich als sendebewusster kann das mit Rodio und Fernsehen schon kaum, an fremden Gedanken und Wahrnehmungen habe ich überhaupt nicht teil. Aufnahmebewusste können es, wenn die Arbeit wie gesagt keine Konzentration erfordert. **Von wem auch immer in meiner Umgebung noch zu erwarten, dass er erfolgreich vorgibt, hiervon nichts zu wissen, meine Gedanken und Wahrnehmungen nicht zu kennen, ist unsinnig und disqualifiziert solche Weisunggeber, die das noch tun, sowohl in den Augen ihrer eigenen Vorgesetzten als auch ihrer Weisungsempfänger**. Mutter, Deine Vorgesetzten im Auswärtigen Amt dürfen Dich inzwischen für genauso untragbar halten, wie alle CiGoH Mitglieder neben und unter Dir. Du solltest Sophias Bafög-Schulden ausgleichen. Außerdem solltest Du Forts. in gesondertem Text "Unsinnige Weisungen"!

buddhistischer Toleranz- und Völkerfreundschaftstag

gestern Abend am Rodenkirchener Rheinufer nah von meinem 0-Punkt im Koordinatensystem kamen wir zu einigen Ergebnissen. Von den zwei wichtigsten noch offenen Fragen dürfte eine beantwortet sein: Warum schweigen Täter und Mitwisser so hartnäckig und verweigern jedes vorbehaltlose Geständnis: Weil sie dann auch einräumen müssten, wie viele Leben sie eigentlich schon alt sind. Der Typ im Körper meines Bruders könnte tatsächlich bereits um die 70 Leben auf dem Buckel haben, wie er mir in 2017, als er mich geistlich penetrierte, weis machen wollte. Der Typ im Körper seines Sohnes, meines Neffen, vielleicht 30. Noch offen ist damit nur die Frage, wie diese Seelenkrüppel es anstellen, ihre Erpressungsopter so unglaublich unter Druck zu setzen, dass diese sogar ihre ehrenwertesten und selbstverständlichssten Berufspflichten (Presse, Strafverteidiger) verraten. **Hinweis zum Schutz der Kinder:** Lasst sie in Euren Ehebetten mitschlafen bis sie in die Schule gehen, auch wenn es dann schon einmal eng werden könnte. "Kinder gehören ins Kinderbettchen" ist ein noch deutlich schlimmeres falsches katholisches Dogma wie "Hunde haben auf dem Sofa nichts zu suchen". Wer sich liebt findet schon Wege die Liebe auch auszuleben. Die Kinder haben/bekommen durch diese tagnächtliche Geborgenheit bei der Mutter insbesondere aber ein starkes Selbst- und Urvertrauen, das ihnen hilft sich gegen aufgedrängte fremde Scheinseelen zu wehren und sich von diesen jedenfalls nicht verdrängen zu lassen. Die Gefahr ist allen bewusst, wenn man an die kurzfristigen Belästigungen denkt, denen Kleinkinder in der Öffentlichkeit in meiner Umgebung immer wieder ausgesetzt werden. Das sind nur kurzfristige Belästigungen, sie tun mir Leid, aber sind nicht meine Schuld. Die wahre Gefahr kommt von der eigenen Verwandschaft, wenn man sich nicht sicher sein kann, ob man ihnen traut und das hätte ich 42 Jahre selbst nicht gedacht. Also aufgepasst und den Kindern viel Geborgenheit geben! Meine Frau (also letztlich wir beide), die übrigens Patronin dieses bhuddistischen Feiertags ist, hat es mit beiden meinen Kinder so gemacht, selbst als sie schon schwer an Krebs erkrankt war, weshalb ich mir um meine Kinder nun keine großen Sorgen mehr machen muss. Sie waren als Kleinkinder mit Sicherheit dieser Gefahr ausgesetzt durch ihre Großmutter, haben aber keinen dauerhaften Schaden genommen. Bei dem Zwischenfall, der mich zu den ersten zwei leichten Ohrfeigen in Sophias Leben hingerissen hat, war sie überrascht worden und kurzfristig nicht sie selbst. Dagegen ist niemand gefeit, wenn man es noch nicht kennt. (Ist mir auch passiert, als der Typ im Körper meines Bruders mich zu der Auseinandersetzung mit meinem Vater anstiftete.) Dauerhaft war diese Veränderung aber nicht. Typische Merkmale von Kreaturen, die mehr als ein Leben alt sind, sind ihre vollkommene Emotionsunfähigkeit, die insbesondere in Form von Gnadenlosigkeit in Erscheinung tritt (Angst kennen sie dagegen schon noch) und ihre absolute gedankliche Unbeweglichkeit. Im System des forgeschrittenen Holocaust verfangen. Merh Einzelheiten zu gestern Abend und hierzu im Text: vorl. Titel: "Abschied vom Rodenkirchener Rheinufer"

wed	8 moon 2 (10 7 19)	first really great night in Istanbul after 10 days of recovering from extreme exhaustion. Meet Ahmed and his friends at the Halic (golden horn) bank between Galata Bridge and "Central Station" Bridge, one of the most attractive bridges I ever walked over, with the perfect skyline of the opposite bank, devine calls of the Muezzins from all sides and a feeling of to me backcoming freedom under the Istanbul half moon ... Enjoying nice marihuana they had a sound sense of the situation in Germany joking about the Turkish word <i>antifriz</i> with their google translation program. Indeed <i>antifriz</i> is what your soul needs to survive over there in the concentration camp BRD. Frostschutzmittel. In Istanbul LGB10 will be written and called FREEDOM!
thu	9 moon 2 (11 7 19)	great night yesterday, however, run out of money... so safe safe safe it now sit in the hostel and read and write and phone for help ... by the way, if anybody would like to support me with a few Euro please transfer your donation to the following account: KSK Köln Peter Kress IBAN DE62 3705 0299 1151 2615 48 it would be very helpful for instance that I can survive the next three weeks until the receipt of my next lawyers old/middle age insurance payments ... I try to avoid such requests normally but this one is kind of inevitable so thank you if you help so sit in the hostel and/or walk through Istanbul and be in the middle of sunset on Galata Bridge view straight east forward on Asia, to the left/north on Bosphorus Bridge still with the last sun from west directly in/on your back shining as well on great Hagia Sophia mosque on the very last south east end of geographical Europe! On the way back on the other side of Galata Bridge to the right completely free view on Bosphorus Bridge, now at half moon black blue night for freeis freeunforgettable ,,, if you consider a donation you might take into account that I offer my information not only on this platform, but also everywhere and permanently, completely for free (however, it is not cost/effort free for me) I feel Istanbul appreciate feeling my information ...
fri	10 moon 2 (12 7 19)	... maybe the upcoming fullmoon LOVE days inspire you considering a generous donation as answer to the more than unbelievable attempts last night of the hard criminals to prevent me from publishing this urgent request for financial help above! See only "screenshot gmailbox Istanbul", especially first and last/fourth shot, of the more than two hour fight which I just published in Kurztexte! ...
sat	11 moon 2 (13 7 19)	... before and after I stepped on Asian ground today for the first time (I still could afford the ferry go-and-back-ticket for 5 TL (about 90 cent) there was no time for work on LGB9 or LGB10 yet for I had to inform the Turkish President per email (not published) about the recent unbelieveable environmental peace breaches by the ghost in the body of my poor brother and to apologize for them. I wish you have nice three days coming up ...
sun	12 moon 2 (14 7 19)	hello from the dogs and cats paradise Istanbul They are around everywhere well fed and looked after and enjoy their being ... not only dogs and cats, Istanbul obviously knows real artists to appreciate ... A lot of them seem to be here and inspire each other I think I got infected already, writing a short story about the ancient truth (maybe LGB9 and LGB10 have to wait a little) ... Today I wish you have nice three upcoming nights! Make love (not only sex (i. e. at least lovely sex)) what will especially in Germany pour out <i>antifriz</i> (hormons) into your system and might help you to find your online banking devices for friendly donations ...
mon	13 moon 2 (15 7 19)	
tue	14 moon 2 (16 7 19)	... after a rainy yesterday we have a clear sky in Istanbul today and tonight, just right for a beautifullmoon! ... I am a little bit uncertain whether I should be grateful for remarkably rising click counts on these pages since the date of my escape or be disappointed that no single donation arrived on my account so far. I think I am both. However, I could borrow a little bit and am not going to starve but this was no donation and I am still on a very tight budget. I really do not understand how people in Germany can be so greedy! May I remind you that I just avoided the devotement of my person to the Holocaust (please see the citation on the last page of my criminal action against my evil brother the most dangerous terrorist on Earth I would guess. On the conference in Kampala this bunch of people lawyers(?) expressly mentioned their "being deeply touched by the destinations of their family memories who they had to sacrifice to the Holocaust"! I did not think up this unthinkable unbelievable way of their thinking. They need to be stopped and I really need to be helped (that I can stop them one day) What would you have done back there in Germany. Oh forget it. I know the answer alreaddy. You would have gone on committing these fucking chain crimes with the next innocent victims for your own release! That is the way it goes normally. Please understand that there needed to be a different approach to detract myself from this machinery. Maybe you can imagine that I miss not only my children. I miss my fatherrhineland my hometown cologne the few friends I still had back there and so on. Please understand that I have to begin a completely new life. what else do you want to know or hear. Ok I slow down my frustration here but would really be happy to see some reactions on my bank account. If not for these reasons than maybe as cost contribution to my art works. Who in gods name works for nothing? Maybe you think about this question beck there in Germany but I wanted to slow down my frustration what I do now. Go out and enjoy the moon ...

😊 Tage der Liebe

thu	16 moon 2 (18 7 19)	... still no donation has arrived on my account. Moreover, someone who promised to borrow me some money did not do it. Obviously a CIGoH order prevented it. The one does not even pick up the phone anymore. This is exactly what would have been expected by me too if I had agreed to join this catholic ghost club. To cheat my friends and other innocent people. I refused and would always refuse no matter how they try to abuse me. I told the story in the email that I wrote to this hard criminal pope Franziskus. You find it here: http://familienzuechtigung.com/sites/default/files/pdf%20/thebeginningofapenfriendship.pdf
fri	17 moon 2 (19 7 19)	Now I have no money at all any more and do not know how I am going to survive the next 11 days but I will survive. tue	21 moon 2 (23 7 19)	... Ok, due to the difficulties in convincing completely ingenuous people of the truth, i. e. of the unbelievable hard crimes of which I became likewise ingenuous the sudden victim, I decided to postpone LGB9 and LGB10 and write instead a chronological report of the crimes which forced me to leave Germany and the catholic union (EU) and travel to Thailand in order to apply for permanent residence over there. It is not easy to keep it short enough and in the same time as complete as possible. Even more difficult is to describe the heavy abuse of nature (committed by my own family (mother, brother, sister in law)). It would probably be impossible if they had not committed conventional crimes too which hopefully help now to let the whole story sound believable. Two more aspects help in this respect. First the abuse of nature is such unbelievable that I could never have thought it up by myself. Second, in Thailand where the final document needs to support my application for permanent residence on the grounds of humanity the different kinds of individual human consciousness (receiving and sending due to our blood type) are other than in the catholic dominated parts of the world no secret and, hence, their abuse in catholic Germany - where and from where not even 80 years ago horrible people murders were committed - probably much easier to accuse. The report, called crime time table, is going to take the rest of my time in Istanbul and maybe even the first days in Thailand. Therefore, here in my diary is nothing to expect any more. However, in order to keep visitors clicking on Kafkas Erbe I am going to publish the written parts of crime time table already successively in the renamed register <i>crime reports</i> (former "Strafanzeige")... so although most is not new please enjoy reading crime time table ...
wed	22 moon 2 (24 7 19)

Both of them do not have much more than I do but share their last TL with me on a daily basis ... sat	4	moon	7	(30 11 19)	back to Cambodia straight away! The 3rd of moon seven obviously turned out as real schützenfest (happy first birthday! love and miss you, baby!) See also Pattaya report in moon 6 ... in course of this real schützenfest episode 9 of you are in the army now on the last page slightly adjusted to be a bridge to modules 1 to 9 as well as to episode 10, and colonel reviewed modules 1 and 2 of you are in the army now published too. However, tonight my office abo expires and I do not know yet when I will be having a new one. So maybe a good occasion for all interested readers to catch up with their lecture of all other contents of Kafka's Heritage. Six weeks time for our recruits is over already. Keep this in mind!
