Subject: Re: all background information on the Skripal Affair

Dear Mrs. May

I arrived in London after I left Germany as a political refugee but when I asked the police to help me...they brought me to a mental hospital (cygnet hospital black heath) and placed me under section 2 of the mental health act, supposedly for assessment and treatment for mental illness instead of helping me. This was more than two weeks ago (23 August) and I am still here, this is the first chance I have had to get to a computer to contact anybody. The police did not yet give me my things back. These are my backpack with my clothes my (HIV-)medication my glasses (I nearly cannot write this email without them) and my two passports. My own and the one of my dog Samy who is running around in London alone now for such a long period of time already. I actually cannot believe how we are treated here in London!! Can you please contact me somehow and provide for my immediate release, I do not know the telephone number but I am on Tyler Ward and the address is 80 - 82 black heath hill. I hope you are well and look forward to hearing from you. Thank you very much!

Sincerely
Peter

Dear Mrs. May
pls see my attached information. I was prevented from sending it several times mysteriously (the files could not be opened any more). Then I was brought to a mental hospital again. But the responsible psychiatrist treated me very reasonably this time, so that I can send it now eventually.
thanks and best regards ---- Message truncated ----
