

Inauguration issues

Day 16 moon 1 year 7 n.a.

Dear Uncle Charles,

Congratulations for your inauguration! As you might recall my humble individual was inaugurated by our common sun system itself in the summer of year 1. Therefore believe me when I regret that the human living spaces of our planet aren't going to provide conditions suitable for us much longer if the crime called Holocaust is continuing and continuing and continuing. Even if the more than modest carbon dioxide emission reduction goals the united state governments have agreed upon in Paris in 2015 should really be met what I doubt mother Earth is not going to relax if her latest guests do not feel a little grateful towards her with regard to all other life on her as well as towards the better of themselves which are the minority who feel grate. To shorten here: my people consider it the next world war declaration after the one when I was inaugurated in case you should not use the exactly first week of your official reign to address the Holocaust which aggressively attacks my country and it's population by targeting only a few individuals myself of who in 1990 secretly and for over seventeen years my whole family in a most ugly wise. My wife was tortured to death and my father murdered as 91 year old in bed recovering from a surgery from behind. You are going to accuse in clear understandable words the ghost in the body of my brother who is still persecuting me 24 x 7 x 52 hours per year invisibly disturbing my environment what he even is proud of. He calls it peace security and even law. He teaches the youth of my population this evil bullshit and his institute just shortly ago founded a group of invisible international lawyers which he declared on his university home page. He is member of

the global Institute for the prevention of aggression with seat in your UK what I told you too many times already without any reaction.

He is guilty of this ongoing genocide against my people and you declare this in your first week or we have to deal with it as a world war declaration as mentioned.

Should my people meanwhile tell me that I did not represent some or all of them here I will adjust this assessment accordingly.

The catholic church declared war during my inauguration. You know how we deal with it. No difference will be made regarding the anglican church which you head. Your son William is not trustworthy in my eyes. You deal with it in case you follow me here otherwise I can tell you now already that Harry is going to be the King of the UK following you or nobody.

Please appreciate that I had to approach you here in this open manner since I feel responsible for the whole of it, of the planet and all life on it and I do not like the way everybody else is war making. Smiling lying and using heavy lethal weapons. I do not smile while I write this I do not lie while I write this and I lead our war legally what my favorite presidents still have to learn too. Had President Putin defended Russia and me in the same time against the legal war attacks „Skripal“ and „Nawalny“ and had President Erdogan defended Turkey and me in the same time against the legal war attack „genocide against the Armenien people“ and had President Xi for example on behalf of his influential neighborhood countries Myanmar and Cambodia defended them against false accusations in Den Haag according to his hegemonial ambitions there would be no war in the Ukraine now and no huge escalation threatening.

President Putin should have answered: You accuse us in this poisoning cases for committing crimes against humanity??? What are yanswered? Is Peter no human? So he must be god.

President Erdogan should have answered: You talk about genocide one hundred years ago in a country one thousand miles away?

Wasn't Dr. Hans Josef Kress the head of your people who was murdered not even one year ago in your own country which certainly can be considered genocide? Why don't you deal with this case first?!!

And President Xi should not keep out of every IStGH issue only because China did not stupidly ratify this court of global evil. He is the president of the by far most powerful country of our globe in economic and philosophic terms but he tries to compete with the US and the NATO in military terms instead of using his authority which was never digged small by a Prof. Dr. Dr. h. c. Dr. h. c. LLM Cambridge and Director for peace security and even law to tell exactly this teacher that Myanmar did not offend the Rohingya on the floor of an IStGH member state why the IStGH is not competent in this case in which this teacher is the ad hoc judge which seems strange with respect to his further role as special adviser of the general prosecutor in Den Haag.

The case in Cambodia must be closed with respect to the humanity of the accused who are soon passing over on the other side. For how many years is it kept open now without any news and without convincing evidence but with what purpose? Democracy watching. Nothing else. The UN democracy is no democracy. Germany is not democratic at all. It shines and shines and shines.

I told them all this already but they pretend that they cannot hear me because my authority is not acknowledged by one single human being expressly.

So believe me as soon as It will be all three presidents will be my friends and freedom justice and accordingly peace are going to be reestablished everywhere unless the human life spaces on our planet have collapsed (which I fear seriously but this is another story).

Have a good start tomorrow!

peter
