

You are in the army now
(episode 8)

TT agenda

- **crime time table**

with special respect to

- reservation of **conscience**
- defending the **fatherland**
- **civilized war forms**
(suicidal, genocidal, psychological ... warfare holocaust)
- **civilized war enemies**

good morning soldiers,

we have read **crime time table** and I asked you to read all of **Kafka's Heritage** within six weeks. So our **invisibility** exploration may begin but does not end with **crime time table**. I already cited **letter111117** (description of mind bomb impacts to Mr. Joshka Fischer) and **craskurs3** (CIGoH disclosure). I would like to add at least **Empfang** (**archive – Empfang**, the very first Kafka's Heritage text – interesting here an obviously defensive sorbic-croatian conspiracy against the austrian-hungarian monarchy in 1909), **LGB1 Alternativerzählungen** ((invisible) offline hacking), **LGB6 Momentaufnahmen** (dissolving consciousness blockades) (both **archive-logbook**) and **LGB7 Kafka's Erbe** (**current logbook**).

Regarding 84 pages **crime time table** we could begin with the first page or with respect to our invisibility exploration with the **first year** on page 36. Ideally followed with the first chapter of part two, the suicidal genocide analysis. Then we are certainly not going to miss what Woody Allen for long already wanted to know about sex but did not dare to ask: **the father the son and the unholy ghost** Very illustrative. Soldiers cannot have missed it!

So you see Kafka's Heritage offers a lot of vital and very valuable information. Much more than cited so far.

We deal with this new whole dimension of invisibility in the course of our civilized war enemy analysis at the edge between mundane enemies and enemy cleric (head enemy).

So, regarding this start point:

enemy quality of

- **cleric**

in the new(?) dimension

- **invisibility**

where would you like to begin, soldiers?

War declaration

Major, let us start with their war declaration at the end of part one crime time table and contemplate and imagine what peter experienced and reported about this night above the left father rhine bank in Cologne-Rodenkirchen, heart of fatherrhineland, and geographically in our natural military defence zone Germany.

It was a divine miracle. The spot love and universal sounds came from above our terrestrial atmosphere. From above the skies. Above the skies in which the celibate father almighty resides. Universal natural consciousness, creation consciousness, this is god, the good, what blessed peter in this night.

And then, peter intuitively pointed at the opponent, the (d)evil, the **enemy**, expressly the **catholic church**, and the need of its removal from our globe.

Let us then imagine the immediate catholic reaction when, in the very second in which peter requested carnival in Sette Colline right off the bat in year one directly after god had blessed him, the whole left rhine bank went dark by a sudden power break down.

It was a reaction on peter. Ok. However, he had demanded this before already, never followed by such a huge reaction. Now it was rather a clear (reflex-) reaction on gods divine acoustic display triggered off by peters request.

It may very well be understood as a **war declaration vs. god's creation** saying that the celibate almighty (represented in the catholic church) dictates rules and life on our terrestrial grounds when the catholic church abused the other side and switched off electricity out of this invisibility. (By the way a perfect example of acting on the other side effective on this side.)

God beyond the profane invisible celibate crime scene waited relaxed for day light and confirmed then in round sounds peters request to remove the catholic church from mother earth.

As answer to the enemies war declaration this may very well be understood as divine acknowledgment of the human defence case.

(This and the other side belong together are one all side. The other side is not in heaven. Well, white head sea eagle's other side of course is - well actually is not of course. my inaccurate german use of the word heaven as skies Himmel and Himmel - it is in the skies, ours is in the same place in which our this side is. Paradise earth. Earth is the perfect paradise already and these evil bastards promise illusions of a better one elsewhere (in the invention of Heaven) while they transform paradise (on) earth into hell (on earth). They play god but do not come beyond the stratosphere. They invade the other side only become invisible and sell metaphysical phenomenon's as all might. However, now the distance between them and god became clear.)

Very intuitive soldier! I know why I would never waive females in my teams!

You didn't read crime time table for the first time, did you?

No major, I am from Cologne and follow peters case for few years already.

It sounds so. From where in Cologne, Rodenkirchen?

Ehrenfeld, major.

Ehrenfeld cool, and may I ask how old you are and why you joined the army now?

24 sir. I studied law and listened actually to you, major, when you represented the army at an employer fair on the campus. Your competitors were law and audit firms. I applied expressly for your division.

Happy to hear this, soldier. Please tell us since when and how you followed peters case.

Ok, when you lived in Cologne he became slowly more and more present. His case just captivating. And he is quite open. Walked often through Cologne and told funny sad true stories. On good days he brought whole town quarters to vibrate. And he provided for some good lullabies too. [Night mare on Köln streets](#) for instance.

Everybody seemed to be aware of his case.

I started to read his texts after I had met him one night on Brussels square. He had asked for a few more clicks and definitely deserved them. The whole square was source of a couple of vibrations of relaxtasy, never felt before. He has shamanic talent.

Mighty sounds from above rounded the natural agreement up. He tells about this evening during the first two week long [general earth populations partnership meeting in nepp](#)! Reading worth!

Since his escape - Cologne followed the crazy criminal case against him, the embarrassing performance of Eßer & Eßer, his defenders, and the (CIGoH) police (Hauptmeister) story at the airport closely - I read everything what he wrote and more on [familienzuechtigung.com](#).

Very good, soldier, what is your name, please, I cannot see your tag.

Caroline Troost, major.

Very pleased to have you with us, soldier Caroline!

Soldiers, I thank comrade Caro - may I call you so? sure major! – particularly for her reading quotes. Night mare on Köln streets is rather funny but [nepp](#) (natural earth populations partnership) is a must have read. Who is still pretending unawareness of certain natural phenomena excludes himself soon automatically from this first natural earth populations society founded in Germany and called F.Land n.EBGbR! In this case this person shows a phenomenon which is difficult to deal with what we learn from peters essay [Phänomene](#) ([archive](#)) what I would like to add to Caro's literature quotations.

Human defence case declaration

Then let us now (exceptionally together) just read (in the register crime reports)

crime time table **year 1** (end of part one beginning p36)

and then let it sink.

....

back after reading:

ok peter is not crazy. He said he represents god. But only in this single question. It was certainly rather meant as a stylistic device to emphasize the pope's blasphemy claiming to represent god on earth.

It is not only Peter who understood the universe like he did. Next to soldier Troost did commander Münde and major Tom understand this message like Peter. Creation consciousness, God, wishes this Catholic sect (Roman Catholic Church) to be removed from its/her/his creation and its Christianity culture dissolved.

Carline's interpretation before we read the report was wonderful:

divine acknowledgement of the human defence case

Peter was addressed and blessed as individual and offered his interpretation from this individual view. However, Peter was addressed as individual of the human collective too. Every individual actually was addressed, since mankind was, however, not everybody witnessed it why we may be very thankful for Peter's reports. As army major, I feel addressed in my fatherland defence function and commander Münde does as navy commander.

Enemy picture

We did not click on the photo file from the register crime reports but we followed the link on the end of page two crime time table part two in order to get it in the right red line.

"Responsible for the genocides and the aggressive wars in immediate perpetration was the Third Reich. The brains behind these henchman and main responsible in mediate perpetration were father and son Benedict XV and Pius XII."

No need to construct enemy images any more. Peter kindly published the enemy picture. What do you feel?

Disgusting, Major! However, quite dead already. Aren't they?

But not yet dug out and burned, soldier. They were the patrons of World War One and World War Two. Pius XII saved the cathedral in Cologne and the Tokyo government while six millions Jews were eliminated and 200.000 Japanese civilians burned in one minute.

Peace treaties in Europe and Asia produced two real work populations in Germany and Japan likewise.

1945 everything in Benedict XV's mind's eye of Versailles. Look at his evil eyes.

However, pictures of enemies current head command look likewise disgusting.

Holocaust (enemies suicidal, genocidal, psychological warfare)

Since we started with crime time table part two in order to see the context in which peter published our enemy picture we did not only click on the link and watch the photo but could not stop reading this page turner at least until page 5!

I may quote peter:

“Never call a suicidal various conventional and one world religion genocide holocaust again. Holocaust is something completely different and other than genocide never codified. International (people) law may note:

Holocaust is the permanent abuse of all essential kinds of natural consciousness, only except for the highest type the creation consciousness which is god and not abusable. Its creation unfortunately is physically and psychologically. Holocaust is the latter. Holocaust is psychological abuse of the creation. The most essential kinds of natural consciousness are individual consciousness of living beings, collective consciousness of living populations (either plants and animals only or together with humans) and spiritual consciousness of the souls of those individuals (and maybe/probable whole collectives too) who have passed to the other side when they died.”

Soldiers, what a perfect day, I am glad I spent it with you!

We found, witnessed nearly, the clearest

war declaration

of the catholic church against god's creation which is imaginable

and thank god for its (expressed (Rhineland) and conclusive) **acknowledgment of the**

- **human defence case** (over the Rhineland)
- **our human defence case declaration** (here)

another **special thanks brother!** goes to peter for the picture of the age ... (last age of course) ...

our clear enemy picture

Tomorrow we look closer at their

Holocaust (enemies psychological warfare)

Enjoy your apples!

End of episode
